

## Projecting QB Dak Prescott's Stats for 2020

The predictions, which were deemed as “unrealistic” and “crazy high” in the comments, ended up being a bit too conservative. Prescott threw 32 more passes, 303 more yards, and two more touchdowns than predicted. While I didn't anticipate Prescott flirting with 600 pass attempts and 5,000 yards, I was right on the money with the projection of 8.2 yards per attempt, a figure which was largely derived from looking at how Moore and others worked in the Boise State offense.

But while Moore is returning as the offensive coordinator, new head coach Mike McCarthy is expected to change things up a bit. Moore is still calling plays, but McCarthy has spoken about infusing some of his West Coast offense into what Moore ran last year.

Just as I relied on Moore's history with Boise State, looking at Mike McCarthy's previous offenses will be instrumental in this projection as well. When McCarthy became the head coach of the Packers in 2006, he inherited a somewhat similar situation.

ARLINGTON -- The Rangers are getting closer to playing baseball in their \$1.2 billion ballpark.

“I'm glad we're going to get a chance to get out there and play,” general manager Jon Daniels said. We've been focused so much on protocols, and everything we need to do, to do it safely. That's probably my biggest thing I have on my plate. I haven't had a chance to think about it from a bigger picture. I think we all would have chosen, in a perfect world, that it would have been a little sooner in the summer, but I'm glad that piece of it is behind us.”
