## HISTORY

Few properties can boast the historic significance of Omni Bedford Springs Resort. For more than 200 years, the eight mineral springs located on the resort's property served as an important gathering place. Eventually, the resort would be the site of many significant moments in American history, hosting a long list of celebrities, wealthy clientele, corporate magnates, and dignitaries from around the world. To date, the resort has hosted 10 United States presidents, seven of whom visited during their presidency.

Omni Bedford Springs Resort's history is shrouded in Native American legend. The springs were known for their curative powers and were known to many tribes along the East Coast. Here, the wounded and sick could imbibe of the springs and be healed of what ailed them.

In 1984, the resort was designated a National Historic Landmark and it closed its doors two years later. In 2004, the resort embarked upon an unprecedented restoration and expansion effort. Returned to its original splendor in 2007, Bedford Springs Resort is the perfect blend of the past and the future.
