CART PATH ONLY

CATALINA COURSE/PP/PC/DR TEE WEST

SEPTEMBER 23(OPEN)

APPLY PODIUM

OCTOBER 1 – OCTOBER 20(CLOSED)

SCALPING AND VERTICUTTING
SEEDING AND DAYTIME IRRIGATION

OCTOBER 21 –NOVEMBER 10(OPEN)

CART PATH ONLY

SCALPING AND VERTICUTTING – Greens, Tees, Surrounds, Fairways will all become bleached from herbicide treatment. Turf will be scalped to open canopy. Sweepers and blowers will be utilized to cleanup scalped debris. Preemergent herbicide will be applied to all non overseeded areas to prevent volunteer Ryegrass from propagating.

SEEDING AND DAYTIME IRRIGATION - Courses will be closed during this time. It is critical traffic is kept off overseeded areas. The courses will be very wet during the initial phase due to frequent light irrigation to germinate seed.

CART PATHS ONLY – To allow the newly overseeded areas to mature, all cart traffic will be kept on cart paths during this time. We cannot allow carts in the rough as an option as the rough will soon be dormant and unable to recover from heavy cart traffic for the remainder of the winter months.

LANDSCAPING LAWNS – Will be overseeded Sept 23rd – Oct 4th unless event bookings dictate changes.
